A note on worship...

Forgiveness

'Forgive as the Lord forgave you'

Colossians 3:13

This week we looked at two Bible stories, one from the Old Testament and one from the New Testament. The Old Testament story was about two brothers, Esau and Jacob. The New Testament story was the story of Zacchaeus. Both stories showed us the importance of forgiveness and giving people a second chance to put things right. After many years of not having any contact due to a falling out, Esau and Jacob met again. Jacob was scared of what Esau would do. Esau gave his brother a hug and forgave Jacob for his actions. Too much time had passed already and Esau wanted to reconcile with his brother.

Jesus helped Zacchaeus see the fault in his actions. Zacchaeus asked for forgiveness and showed he was truly sorry by repairing the failed relationships with the people around him.

Both stories show the importance of putting right the wrongs that we do, even though it can be very difficult.

Events for the Week

Beginning

11.03.24

Monday

Guitar Lessons

Ukulele lessons

Brass Lessons

After school Multi Games for years 3, 4, 5 and 6

After School Choir

Tuesday

Class photographs

Reception heights and weights

Keyboard, strings and woodwind lessons

After school football for years 4, 5 and 6

Wednesday

Swimming lessons

After school multi-skills for years 1 and 2

Thursday

World Book day (see below)

After school dodgeball for years 3, 4, 5 and 6

Friday

Cricket Coaching for years 1-6

From the office...

- **School dinners** need to be ordered for after the half term holiday.
- **Emergency Contact Forms** need to be completed and returned – a second copy was sent out to those who are yet to return them.

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many devices which we believe trusted adults should be aware of. Please visit nationalcollege.com for further guides, hints and tips for adults.

What Parents & Carers Need to Know about SMART TVs

Smart TVs connect to the internet without the need for a set-top box or streaming device, letting users access a range of features through the TV set itself, from on-demand content apps like BBC iPlayer to streaming services such as Netflix, as well as connecting to smartphones and other wireless devices. Most new televisions are internet enabled – so whether you're thinking of upgrading your home viewing system or buying an additional TV for your child's room, it's now even more important to consider the online safety aspects.

WHAT ARE THE RISKS?

AGE-INAPPROPRIATE CONTENT

From Netflix to Disney+ to Prime Video, there is a plethora of streaming services available. While these services offer content catering for younger viewers, they also provide material for more mature audiences. If you don't have parental controls set up on your accounts, your child could find themselves being exposed to shows and movies with adult themes, strong language and violence.

INCREASED SCREEN TIME

The array of content available through smart TVs could lead to your child spending excessive amounts of time in front of the screen. Not only can prolonged screen time distract from important activities such as schoolwork or exercise, but experts have also warned that endless hours in front of the box can lead to health problems including obesity, poor sleeping patterns and depression.

REMOTE-CONTROL RETAIL

Like many online devices, smart TVs facilitate digital purchases: buying a new app or the latest season of a favourite show, for example. If your child has access to a bank card and isn't restricted by spending controls on the system, they could run up a sizeable bill through a smart TV fairly quickly – especially if they're not quite old enough to fully appreciate the value of money.

UNCONVINCING SECURITY

As Internet of Things (IoT) devices, smart TVs can be uniquely vulnerable to attack. Experts warn that internet-enabled TVs tend not to support high-level security software, so you won't always be able to download strong antivirus programmes like you would on a phone or computer. Being targeted by hackers could be deeply upsetting for your child, as well as putting their personal data at risk.

A SILENT SPY?

Some smart TVs already collect data on users' viewing habits and then display targeted advertising based on that personal information – while there have also been reports of internet-enabled TVs (and the apps installed on them) being used to 'eavesdrop' on owners. In models with a built-in microphone (for voice activation), third parties could potentially listen in on someone's home life.

CONTACT FROM STRANGERS

Many smart TVs can be used for web browsing, social media and live streaming – all of which could allow unknown users to contact your child (or vice versa). If your child engages with these functions of the TV, a stranger could potentially discover their contact information and potentially then use it to obtain even more sensitive personal details, such as your home address.

Advice for Parents & Carers

MAKE IT A FAMILY THING

Family TV time is a great way to model the responsible enjoyment of technology – showing your child how to use the smart TV safely for when they're old enough to watch it independently. You could also take this opportunity to establish some healthy TV boundaries, such as time limits on their daily viewing or how to make sure they're only watching content that's appropriate for their age.

CREATE CHILD PROFILES

Much like with smartphones and tablets, apps can be downloaded onto smart TVs: from free content platforms such as BBC iPlayer to paid-for services like Prime Video. Most of these apps allow you to create a separate account for your child which has different settings to your own – suggesting more child-friendly material and reducing the possibility of them viewing explicit content.

SET UP PARENTAL CONTROLS

It's likely that your smart TV has built-in parental controls, which not only let you filter out age-inappropriate shows, movies and games but can also restrict in-app purchasing, so your child can't accidentally spend money through the device. When you've enabled these safeguards, have an open conversation with your child about the reasons, helping them to understand the potential risks.

CONSIDER THE LOCATION

If you're concerned about the online safety hazards that a smart TV might pose to your child, you could consider where in your home you put the device. The safest option would be to place the smart TV in a shared family space – so that an adult is usually nearby and able to supervise while your child's watching it – rather than in the relative privacy of a bedroom.

WHY 'KINDNESS MATTERS' & HOW DOING GOOD DOES YOU GOOD

'WE MAKE A LIVING BY WHAT WE GET. WE MAKE A LIFE BY WHAT WE GIVE.'

SIR WINSTON CHURCHILL

THE FOCUS FOR THIS YEAR'S MENTAL HEALTH AWARENESS WEEK IS 'KINDNESS MATTERS'. IT IS AN OPPORTUNITY TO LOOK INTO THE BENEFIT OF HELPING OTHERS WHICH IS GOOD FOR IMPROVING OUR OWN MENTAL HEALTH AND WELL BEING. HERE ARE SOME IDEAS TO GET YOU THINKING:

ALTRUISM

Altruism is acting in someone else's best interests in order to improve their welfare. When we feel compelled to donate money, shop for someone, call a relative in need or help a neighbour, we are considering the needs of others even when we may not know them. Showing kindness like this, often motivated by empathy, creates a sense of purpose, making us feel good and developing our wellbeing. Children and young people can take part in altruistic activities at home or school. They could create a video for those in isolation, fundraise for a local cause, bake cakes for neighbours or write letters to older members of the community who may feel isolated.

GENEROSITY

In the context of kindness, being generous with our time, resources and words can provide a low-cost approach to helping others. A generous act is accessible to all. Giving compliments, for example, are a well-researched way of creating a sense of wellbeing and positivity in a community at school or with family. It helps us to recognise the positivity in others as we actively choose to notice and comment on what is valuable and meaningful in someone else. When compliments are given regularly, consistently and with meaning, the community benefits are far reaching!

GIVE TO GIVE, NOT TO RECEIVE

Sometimes when we are kind there is no payback, which can make it more difficult to keep being kind. Our natural reaction is to shrink back and withdraw our kind act, feeling frustrated that it has either not been reciprocated or that it has not been valued. This is probably one of the most difficult concepts for children to understand and where the 'random acts of kindness' approach is helpful. If it is a random act then it is 'just because' and for no other reason than a one-off act for someone.

HOLDING OTHERS IN MIND

By holding someone in mind we show that we have been thinking about them and that they matter to us. This act of kindness is so important now, more than at any other time, due to isolation. A simple text to say 'I saw... on the telly last night and it made me think of you' or a quick call to say 'I was just thinking about you yesterday and was wondering how you're doing?' can mean so much. We probably all do this naturally as part of showing kindness and care to others, but perhaps may not appreciate the importance of this for wellbeing.

COMMUNITY

When we help others in our community, it improves our wellbeing by helping us to feel less isolated as we connect with others. When we show kindness, it is something which we feel we can control, particularly when things may feel a bit chaotic and unusual. Helping others can often give us a different perspective on our own challenges and our own problems. Peer support, for example, is often overlooked as an important part of improving wellbeing. Older students can often greatly benefit from sharing similar, shared experiences and can offer a level of empathy and understanding that adults may not be able to.

KINDNESS WITH CAUTION

There is a very helpful analogy that is used when we are in an emergency, 'we should put our own oxygen mask on before putting on someone else's'. What's helpful here is that giving to others can often improve our mental health and wellbeing. However, there are times when helping others can create stress or overwhelm us. This is sometimes called 'compassion fatigue'. So, we must balance our own wellbeing with the wellbeing of others. We should notice if we start to feel resentful or negative or if we start avoiding others, have difficulty concentrating or start experiencing unusual sleep patterns. If this happens it's a good time to take a break or ask someone for help or support.

'KINDNESS IS A SILENT SMILE. A FRIENDLY WORD. A NOD OF ENCOURAGEMENT. KINDNESS IS THE SINGLE MOST POWERFUL THING WE CAN TEACH CHILDREN.'

RA KIVIST

The National College

This guide has been written by Anna Bateman. Anna is passionate about placing prevention at the heart of every school, integrating mental wellbeing within the curriculum, school culture and systems. She is also a member of the advisory group for the Department for Education, advising them on their mental health green paper.

Rocket Visit

The children had a great time last Friday when Steve and Emma brought the Starchaser rocket to school. The children learned all about rockets and space exploration. As part of the day, the children launched their own mini rockets in the playground. Unfortunately, the weather got the better of us and the launch of two smaller rockets on the field was cancelled. We are hoping Steve will come back in the summer to launch the small rockets.

The story of our Rocket visit found its way into the Manchester Evening News, as people were stunned to see the rocket being transported along the M60 on its way back from our visit.

There are lots of videos and photographs on our Facebook page

.

Dates for the Diary...

Tuesday 12th March – Class photographs

Monday 18th March – Swimming gala

Monday 26th March – Share our work afternoon at 2.00pm

Wednesday 27th March – Easter Activity Day – Easter bonnets and Egg decorating competition

Thursday 28th March – Easter Service in church from 1.45pm

Thursday 28th March – school closes for the Easter holidays and reopens on Monday 15th April.
